

Battery Electric Buses 2016

C-TRAN

Project Completed: May 2023

Project Information

RTC funding: \$1,925,000 CMAQ

Total Project Cost: \$3,624,250

Project Type: Transit

Project Length: 0.00 miles

Function Class: Not classified.

Daily Traffic Volume:

Project Description

Purchased six (6) battery electric buses to maintain and expand C-TRAN service. Battery electric vehicles will help to reduce fuel consumption and emissions as well as provide improved reliability.

Project Benefits

- Reduce emissions
- Improve fuel efficiency
- Reduce maintenance costs
- Improve reliability

Project Funding

| Phase | Year | Federal Funds | Other Funds | Total |
|--------------|------|---------------|-------------|-------------|
| Design | | | | |
| Right of Way | | | | |
| Construction | 2023 | \$1,925,000 | \$1,699,250 | \$3,624,250 |
| Total | | \$1,925,000 | \$1,699,250 | \$3,624,250 |
